

True effect is linear (slope = -1)

Fit by GEE

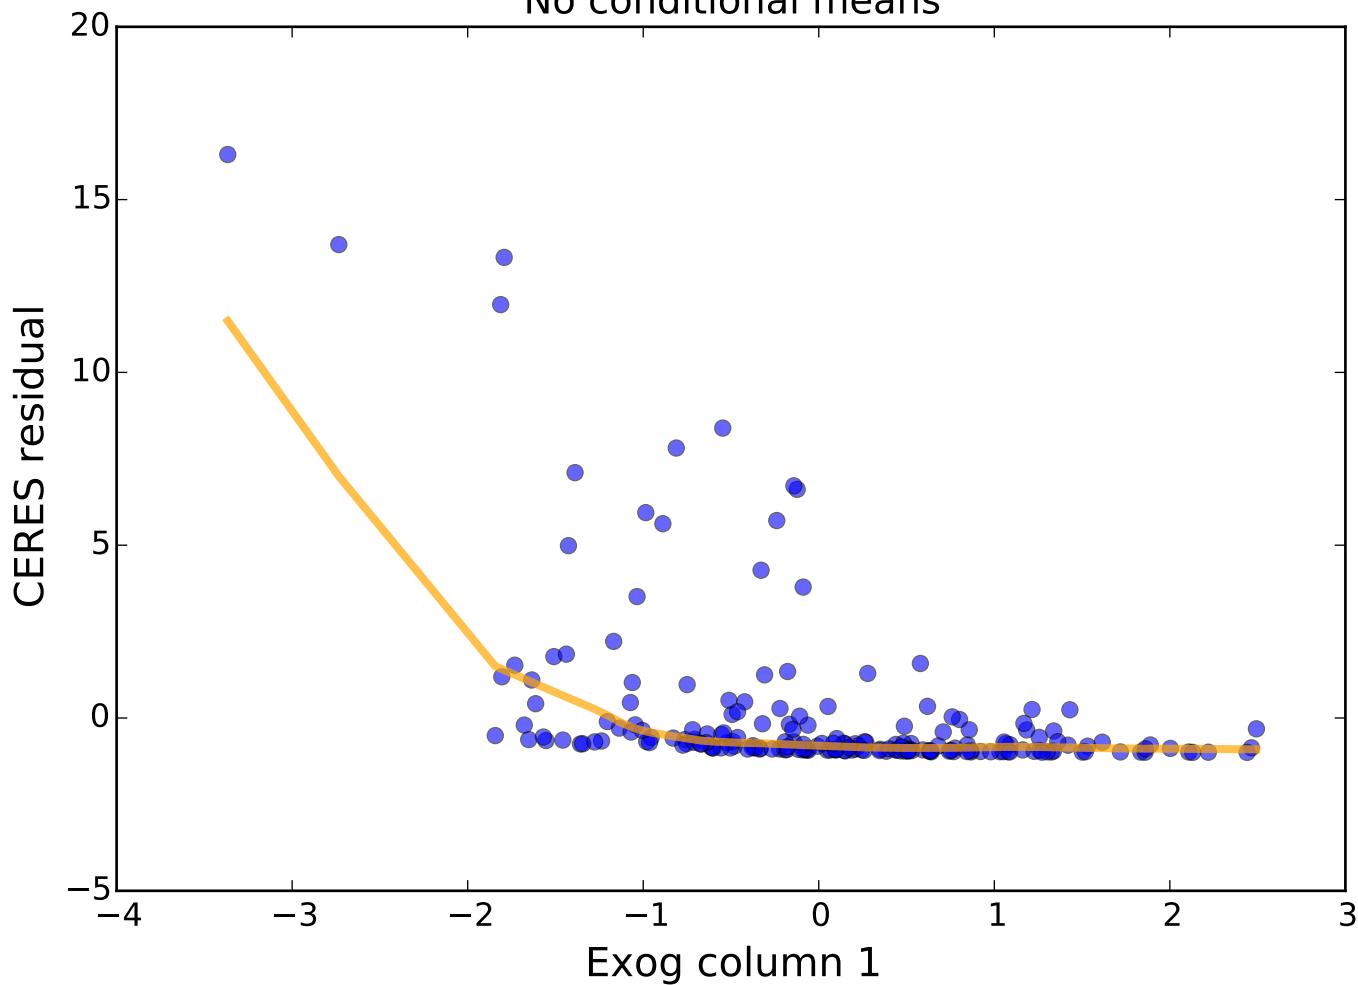

Estimate conditional means

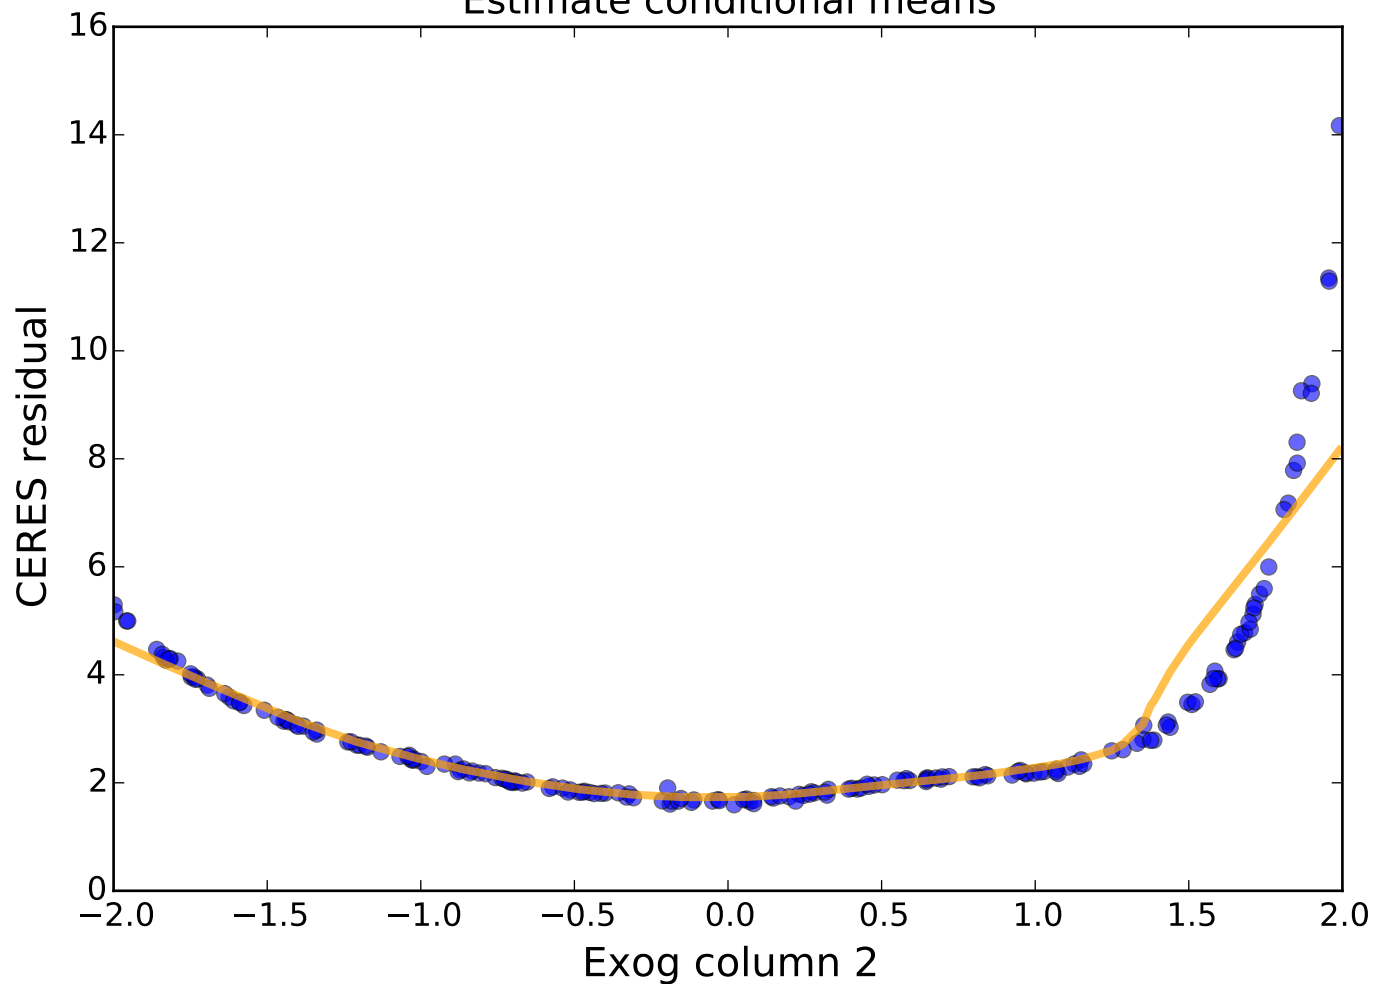

True effect is linear (slope = -1)  
Fit by GEE  
Set conditional means to focus column

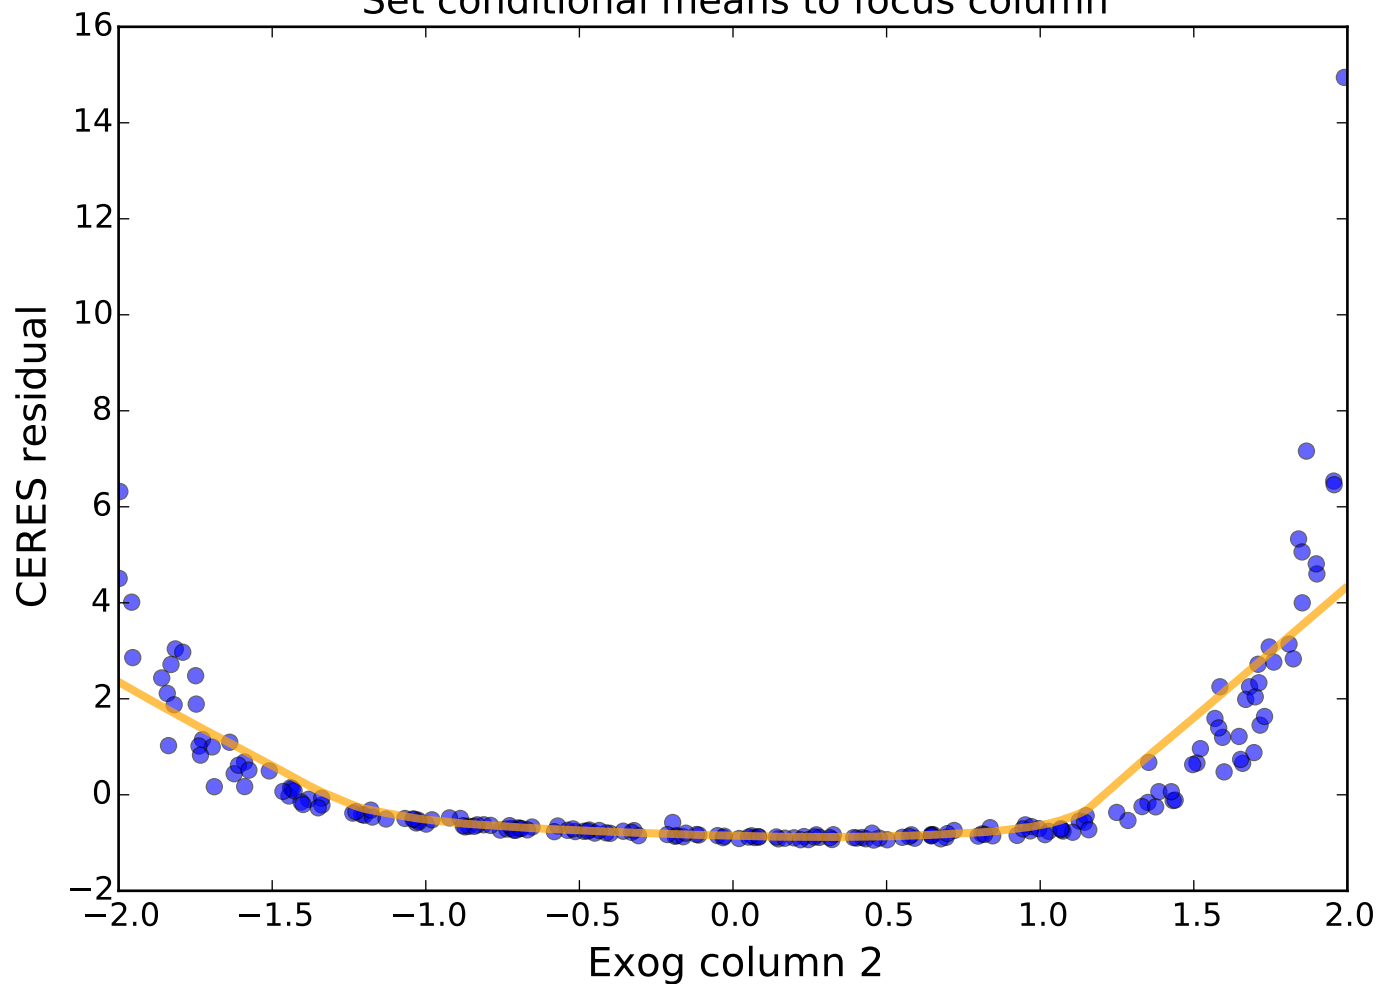

True effect is linear (slope = -1)  
Fit by GEE  
No conditional means

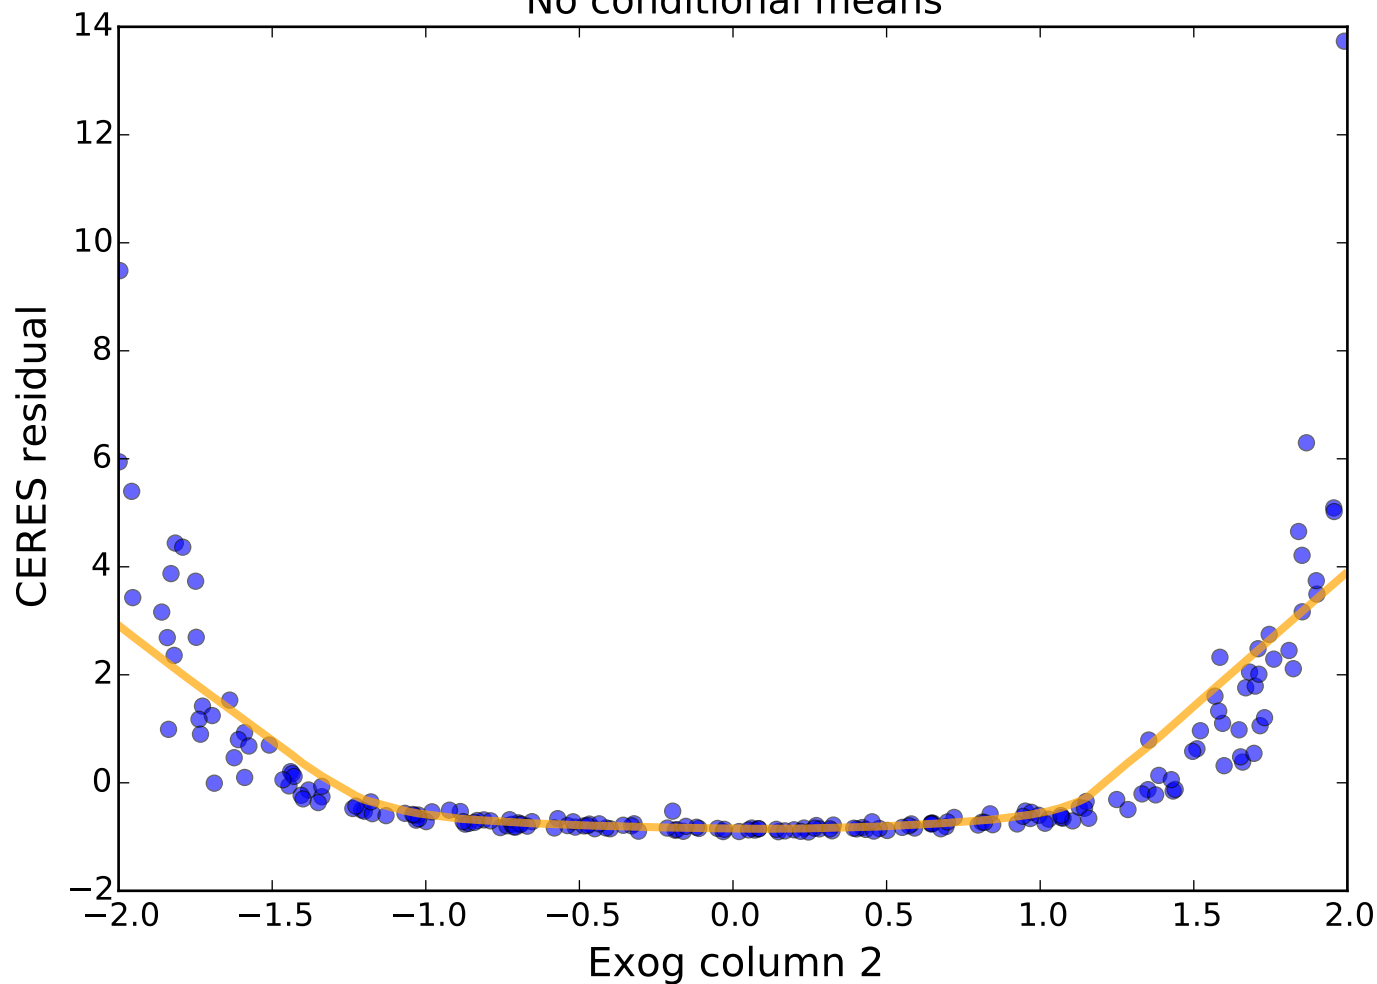

True effect is quadratic  
Fit by GEE  
Estimate conditional means

True effect is quadratic  
Fit by GEE  
Set conditional means to focus column

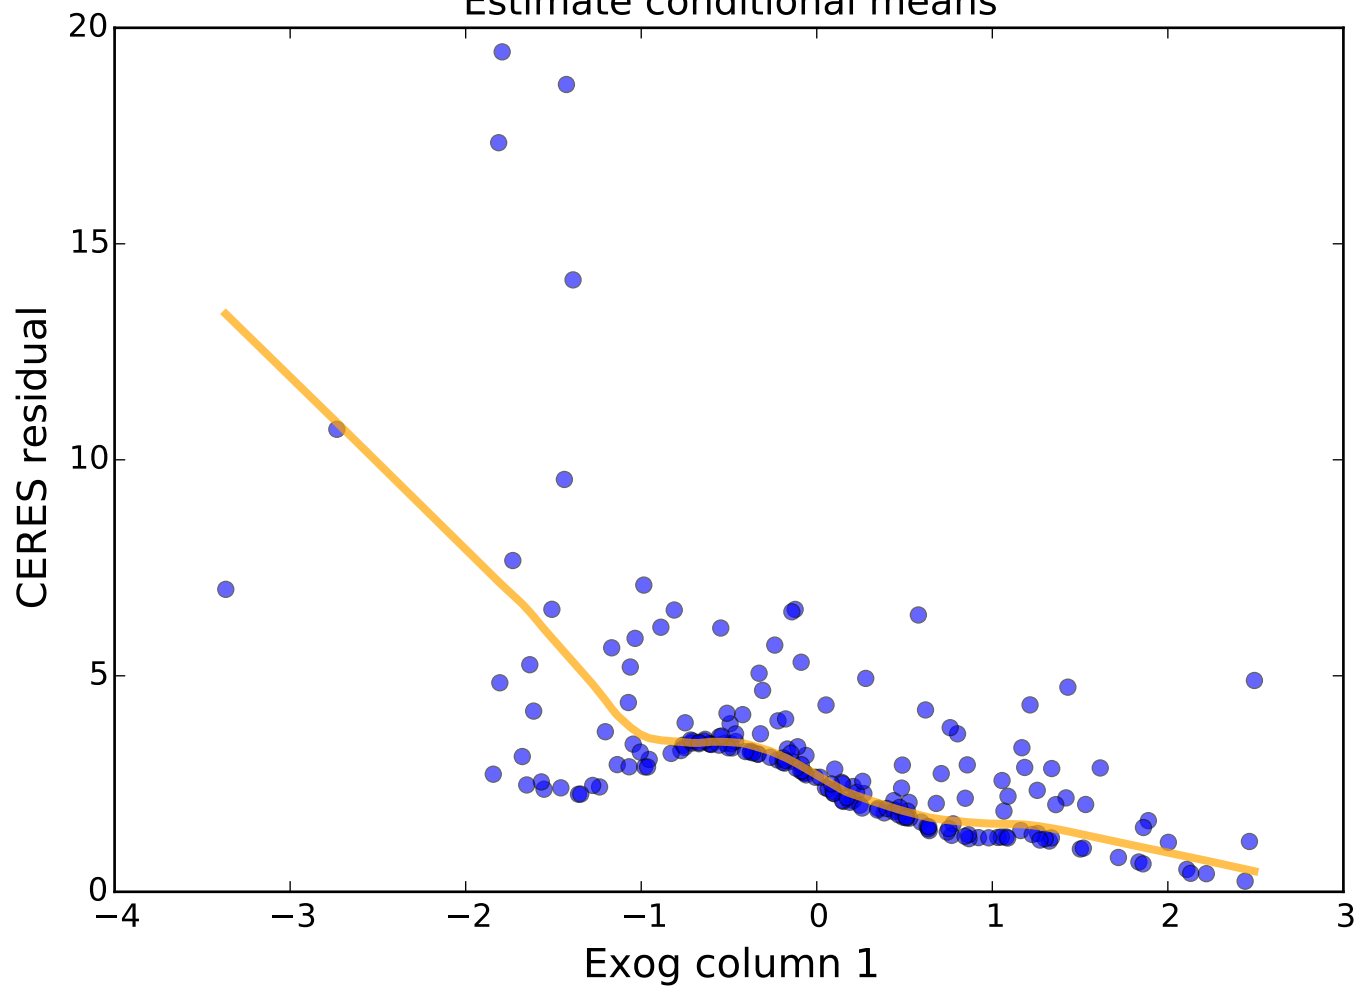

True effect is quadratic  
Fit by GEE  
No conditional means

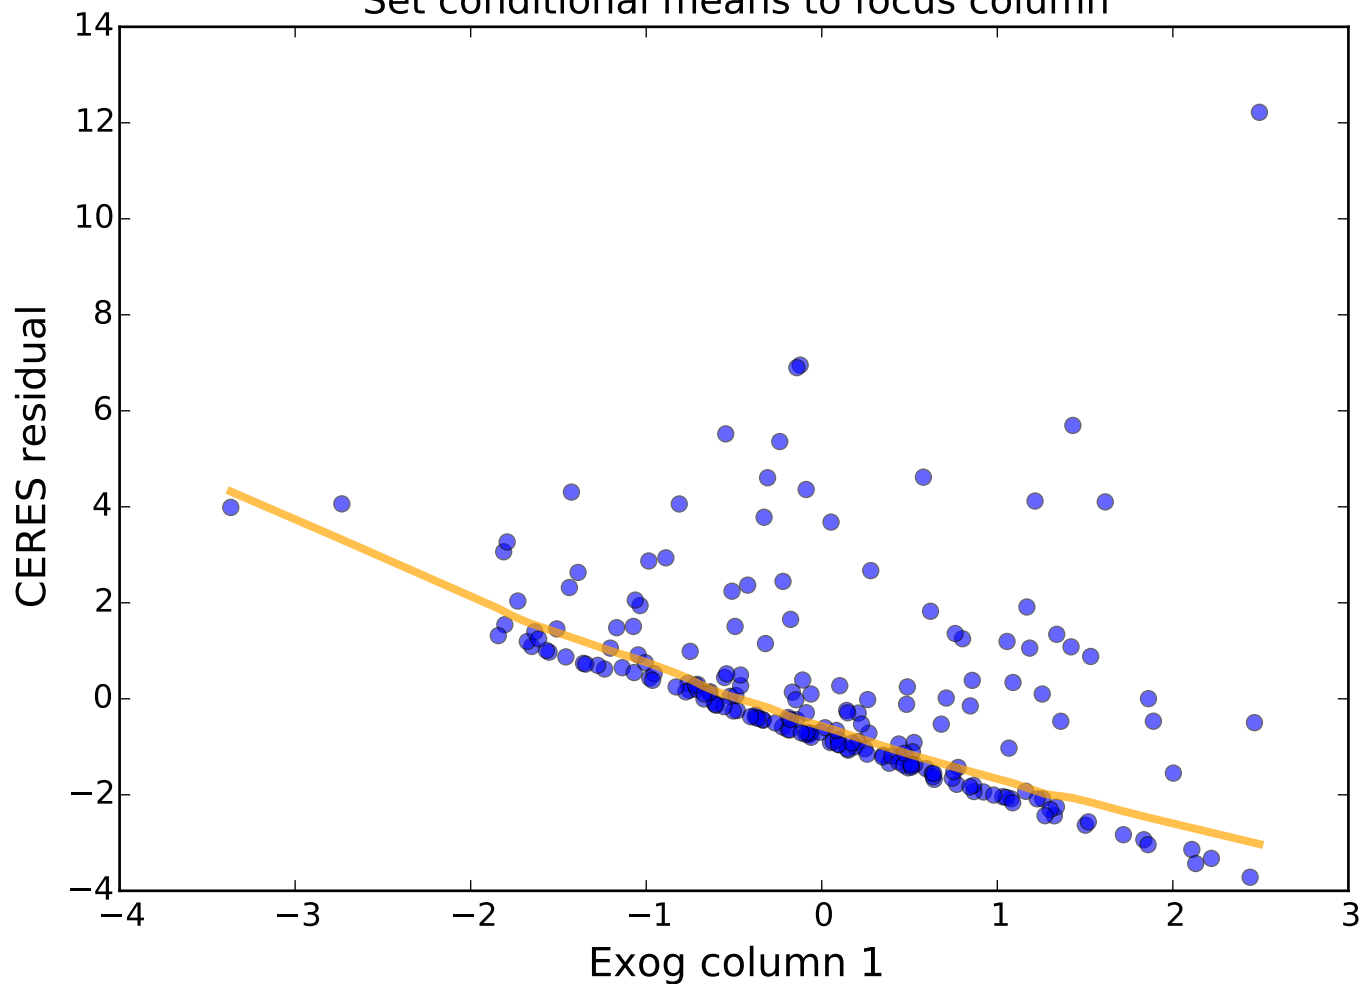

True effect is linear (slope = -1)

Fit by GLM

Estimate conditional means

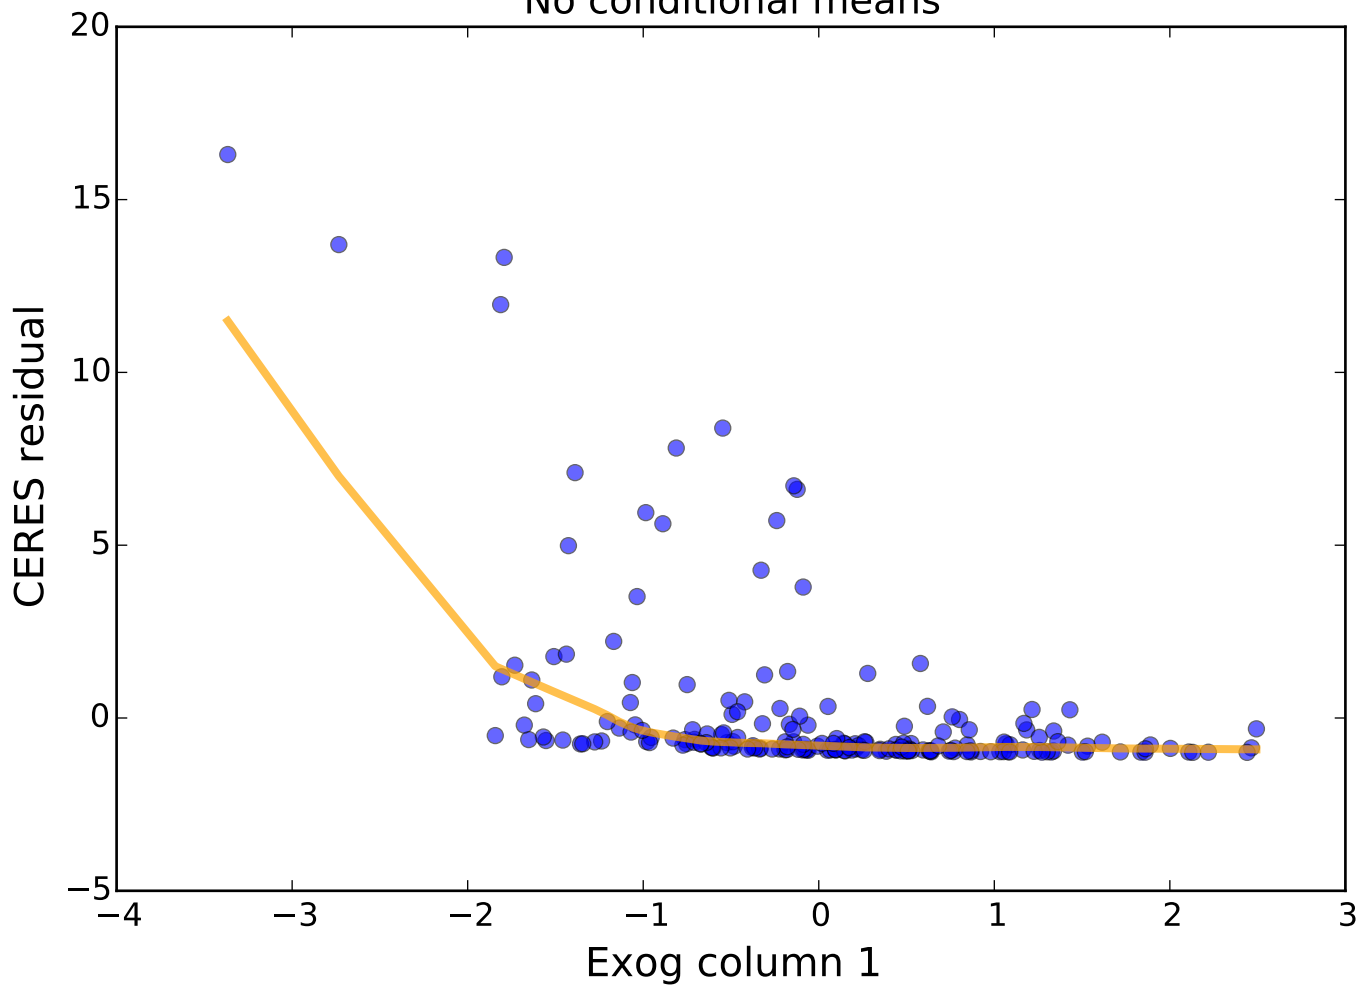

True effect is linear (slope = -1)  
Fit by GLM  
Set conditional means to focus column

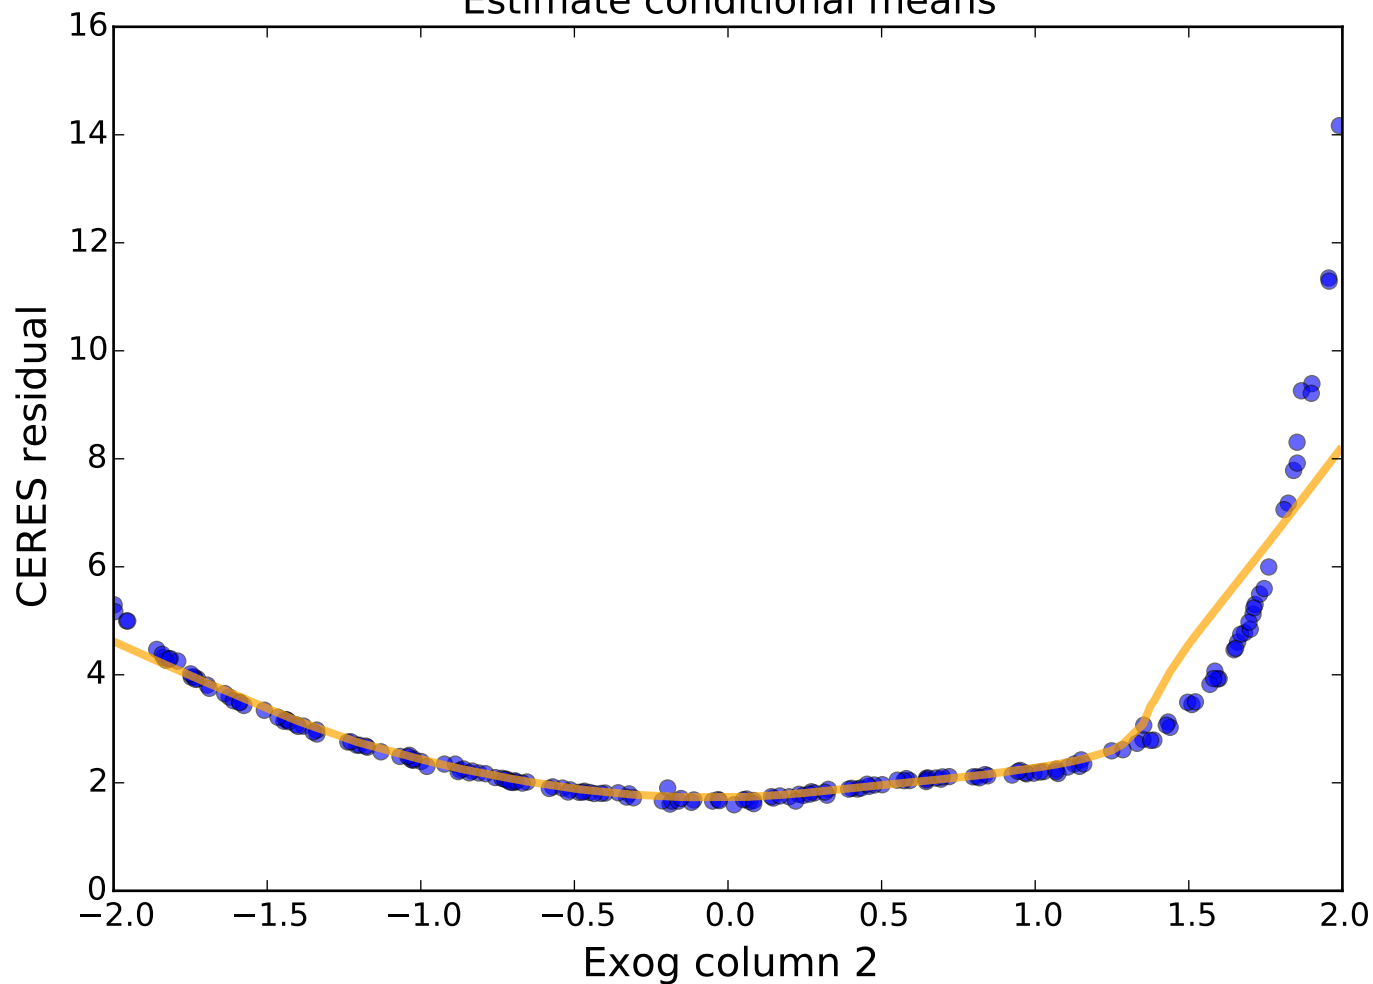

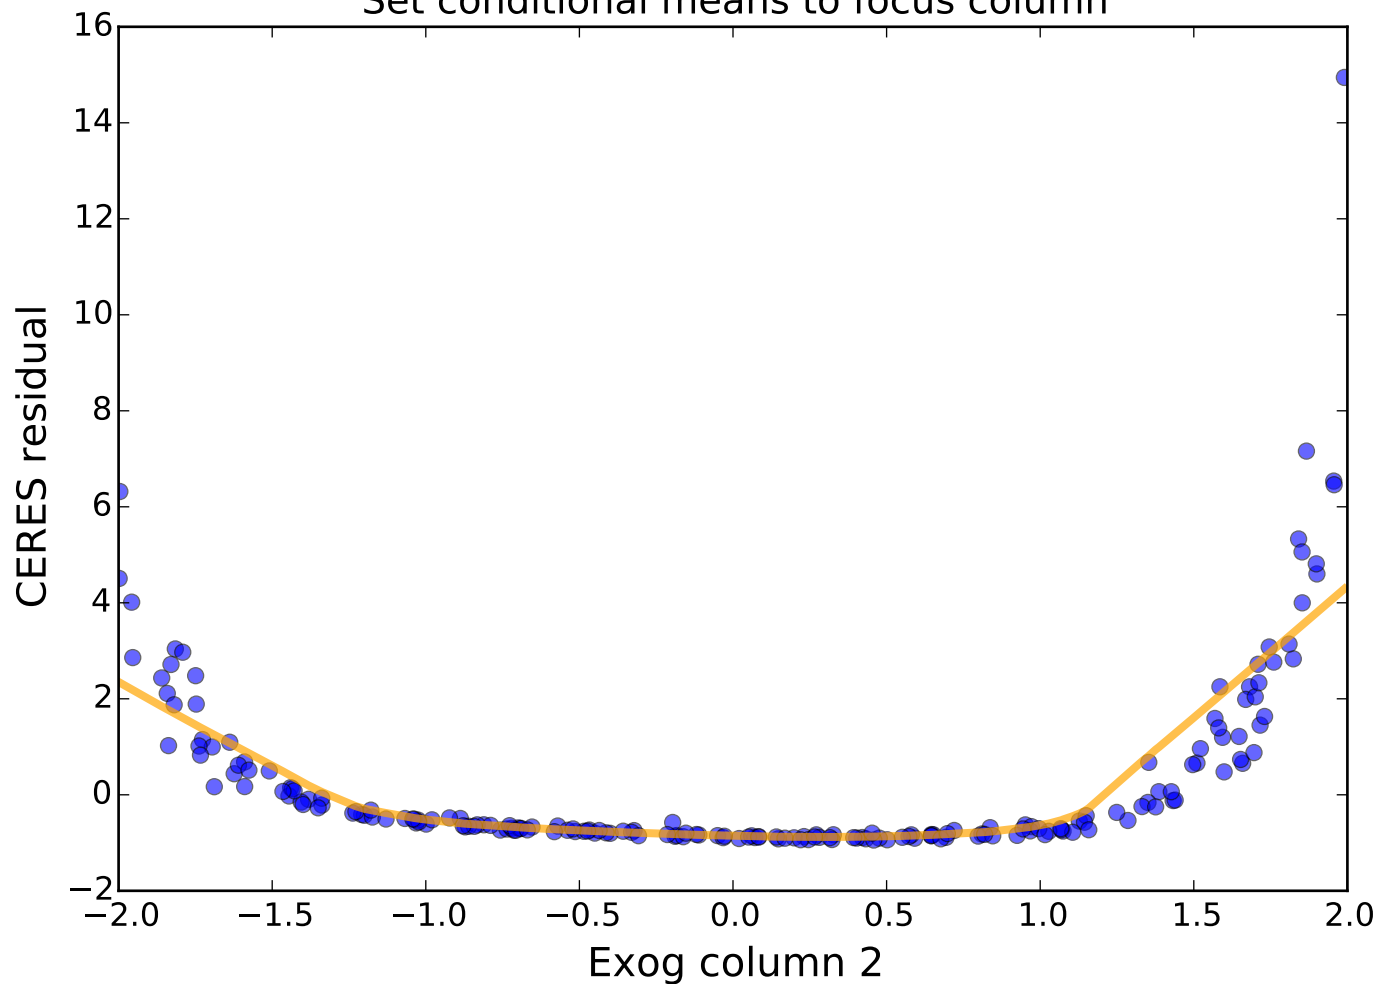

True effect is linear (slope = -1)  
Fit by GLM  
No conditional means

True effect is quadratic  
Fit by GLM  
Estimate conditional means

True effect is quadratic  
Fit by GLM  
Set conditional means to focus column

True effect is quadratic  
Fit by GLM  
No conditional means
